PROFESSIONAL SUMMARY

Lead Mobile Engineer with 10+ years of experience building and shipping production applications across iPhone, iPad, and tvOS. Expert in Swift, SwiftUI, and Objective-C, with a proven ability to modernize legacy UIKit codebases and deliver customer-facing apps at scale. Includes 3.5 years of cross-platform work in React Native (JavaScript/TypeScript) and backend development with PHP and MySQL, enabling end-to-end feature ownership. Strong track record of taking ownership, working in Agile teams, and mentoring junior developers.

TECHNICAL SKILLS

Mobile (iOS): Swift, SwiftUI, Objective-C, UIKit, Combine, Core Data, ARKit, SceneKit, XCTest, XCUITest

Cross-Platform: React Native, JavaScript, TypeScript

Backend: PHP, MySQL, REST APIs, JSON

Architecture & Patterns: MVC, MVVM, VIPER, TDD, Clean Architecture

CI/CD & Tools: Xcode Cloud, Bitrise, CircleCI, Fastlane, Firebase, Git, AWS

Methodologies: Agile, Scrum, Code Review, Pair Programming

Design & Collaboration: Figma, Sketch, Zeplin, Jira, Confluence

PROFESSIONAL EXPERIENCE

Senior iOS Engineer | Mobile Platform Owner **March 2022 – Present**
Apptitude B.V, Netherlands

- Lead iOS development and maintenance for Colect and Le New Black (sister product), two leading B2B sales platforms in the fashion industry used by global brands and sales representatives.
- Own the iPad versions of the customer-facing apps, delivering product catalog, order processing, and showroom workflows.
- Develop and maintain Colect Digital Showroom, a dedicated tvOS application that extends the platform to large-screen showroom experiences.
- Modernize legacy Objective-C components to Swift and SwiftUI, improving maintainability and developer velocity.
- Collaborate with product owners, designers, and QA in an Agile/Scrum environment to translate business requirements into production-ready iOS features.
- Live apps: Colect (apps.apple.com/us/app/colect/id1286622630), Le New Black (apps.apple.com/nl/app/orders-by-le-new-black/id1166571518), Colect Digital Showroom — tvOS (apps.apple.com/us/app/colect-digital-showroom/id1627259523).

iOS Developer **October 2021 – February 2022**
Bolders Consulting Group, Netherlands

- Developed iPhone and iPad features for Jumbo, one of the largest supermarket chains in the Netherlands, serving millions of users for grocery ordering and recipe discovery. Live app: apps.apple.com/nl/app/jumbo/id936150402.

- Built UI in SwiftUI and integrated with existing UIKit codebase, ensuring a consistent user experience across screen sizes.
- Worked closely with a cross-functional team on performance, stability, and release quality.

Freelance Fullstack Developer **April 2021 – September 2021**
Self-Employed

- **iOS / React Native / Web:** Delivered multiple mobile and web projects as an independent contractor, managing requirements, architecture, and delivery end-to-end.
- Built NodeVPN (SwiftUI), a premium VPN client focused on privacy and security (nodevpn.com).
- Developed Live Building Systems (livebuildings.com) and 5Star Life apps using React Native (JavaScript/TypeScript), with PHP backend integration for 5Star Life.
- Delivered the Innovation Factors web platform (React JS, PHP, MySQL) for insights-as-a-service analytics.
- Provided training on React Native and iOS development to client teams.

Senior Mobile Application Developer **June 2019 – March 2021**
Gxx India Pvt Ltd

- Led development of iOS and React Native applications, including WHSmith Scan and Go (Swift) — a self-checkout retail app (apps.apple.com/gb/app/scan-and-go/id1341626242) — and BLOK Pass / BLOK Verify (React Native), self-sovereign ID solutions for identity verification and COVID-19 return-to-work workflows (apps.apple.com/us/app/blok-pass/id1533666228).
- Supported hiring and mentoring of junior developers and fresh graduates.
- Shipped apps to both Apple App Store and Google Play Store.

Tech Lead & iOS Developer (Co-founder) **February 2018 – June 2019**
BothOfUs Pvt Ltd

- Co-founded and ran a software development startup, handling hiring, project management, client relationships, and hands-on development.
- Delivered FermoFood (Swift), an iOS app aimed at reducing food waste, and led the UI revamp of MATJAR (Objective-C), an e-commerce app in Jordan.

iOS Developer **March 2017 – February 2018**
OutlierSoft Technologies India Pvt Ltd

- Developed StoryWalker 365 (Objective-C), an iOS and iPad app delivering age-targeted educational stories for children.

iOS Developer **February 2016 – March 2017**
Akonect, Chennai, India

- Built Clutto (Objective-C), a messaging platform combining mail and chat into a unified interface.

iOS Developer **August 2015 – February 2016**
Ideabytes Software India Pvt Ltd, Hyderabad

- Developed OnVue (Objective-C), an IoT-based network monitoring application capturing sound and motion events.

SELECTED ADDITIONAL PROJECTS

- **UX Assist 2.0 (Swift):** iOS app for designers with workflows for product and app development.
- **Lystloc (Swift):** Real-time field team check-in/check-out app for sales and service teams.

- **Sarcon (Objective-C):** Event networking app for conferences; delivered the 2.0 version.
- **Oystro (Swift + PHP/MySQL):** Meeting scheduling and social app built with Swift, PHP, and MySQL.
- **Business Dhronacharya:** Online education platform for entrepreneurs (PHP).
